THE NIGERIA POLICE
STATEMENT OF COMPAINANT/WITNESS

Police P 19

.............................STATION.............................PROVINCE

NAME: MOUKA EMMANUEL NATIONALITY/TRIBE: NIGERIA

AGE: 32 OCCUPATION: Foreign Student SEX: M RELIGION:

ADDRESS: Alihame, Agbor, Delta State

TEL: (0704707) +233570464341 DATE: 24/9/2022

I FREELY ELECT TO STATE AS FOLLOWS:

I am Mouka Emmanuel, the Delta State Police Command,
Asaba refused to take my statement, they claimed
that a lawyer I did not consult or authorize to
act on my behalf was able to alongside the in
vestigating police officers create a falsified statement
I brought several lawyers to the Delta State Police
Command asaba to protest this action while detained.
The police acknowledged they had written a statement
without my input or consultation. they refused to take
action towards my protest of falsifying a statement.
The Delta State police command, asaba refused to take
my complaints, investigate the incidents I was reporting
and refused to protect my life and family's, their
actions of detaining me without cause and refusing
to take my statement and notice that these criminals
may carry out continued attempts to kill me
led to my premises being attacked while I was
detained at state police command, asaba, delta state.
The action that led to me being transported to
state police command, asaba, Delta State was both
suspected to be unlawful, carried out without cause,
and carried out with possible malice by the DPO at
Agbor Police Area Command, located opposite the Agbor
Correctional Center, as at the time of the incident.
The Agbor Area Police Command was requested to
provide assistance towards an armed robbery
and assasination attempt or event at my resident-
ial and business premises. My company is registered
in Nigeria and we have employees. We deal in
counter-surveillance, security services in relation to
counter-surveillance and advanced network/signal

during registration at the CAC. the Agbor Police Area and Divisional are both aware of attacks at my business and residential venue, the police have been invited during the attacks, robberies and continous threats to life of myself, family and Staff by unknown entities who had access to the property and were able to tamper withe the Security Systems such as the ccty camera systems, security fence and electrical security fence systems unlawfully and illegally. The Agbor Police Area command detained me when i sought their assistance regarding the attack we had experienced. the officers on duty were willing to assist but the DPO as at the time of the incident was both hostile, abusive and made efforts to insult, assault and abuse me without cause. The police officer DUKE AMERIKA is one of the officers regularly handling reports of robberies, armed robberies or other concerns at the premises. While detained and prevented from taking care of my affairs and family, my personal effects including my vehicle was also forcefully taken from me with threat of further assault on instruction and action of the DPO and police officers carrying out the abuse. The Agbor Police officers considered me to be rude without cause and got angry that i refused to write what they were dictacting to me. I Stated that i am only able to write what i wish to

I FREELY ELECT TO STATE AS FOLLOWS

If necessary and right now I needed help to protect my life and property after the armed robbery and assasination attempt against me at my business and residential premises. The Agbor police command refused to provide the assistance and rather detained, abused and constantly made an emphasis that they were older persons and as such i should submit to their abuse and incriminate myself through what they were dictating I refused. They transferred me to asaba Delta state Police command in a white bus, with someone later identified as Happiness Augustina Odebei as the complainant. The said Happiness Augustina Odebei was kept behind me in the vehicle while i was kept in hand cuffs, I suffered verbal and possibly physical abuses during the trip to Delta State Police command, Asaba. I was kept in a vehicle till nighttime at the state police command, Delta state Police Command, Asaba without explanation, I was lucky to have some family and other person present to prevent continued abuse by the person identified as Happiness Augustina Odebei. A Mr. Yakubu eventually asked questions regarding my business status, source of income and social status. I gave answers that I was a business person and student with

P.T.O

good standing in society and no criminal
association. He asked that Mr. Onyeama
take my statement. I refused after a brief
torture while stating i would only give
a statement in the presence of my lawyer
one of whom was a Barr. Mutairu as i notified
the MR. Yakubu. I was detained after being
asked to strip against my protest. This was
the start of a long detainment where I
suffered abuses and refusal by the officers
to investigate my notices, take my statement
and put my life and my family's at risk
by refusing to take action towards the at-
tackers who had attacked me that led to
me seeking assistance as a law abiding
citizen. The police officer connived with an unknown
lawyer to write a statement without my input and
refused continued protest to take my statement
claiming they know what is best against my con-
tinued protest and engagement of my authorized
lawyers to take my statement and stop the
act of falsifying a statement written by the
police which is reasonably unlawful and ill-
egal. the police officers refused while detaining
me without cause, refusing bail without cause

and endangering my life and my family's by refusing to acknowledging my complaints and allowing another attack by the unknown armed criminals and assassins while I was detained. They were notified of these events but refused to take it in writing or carry out an investigation. Being fully aware they took no action to protect my life, family's or property while detaining me and the criminals being allowed to enjoy freedom with me the victim of an armed robbery and assassination attempt being detained. Next are a summary of the events before being detained by the Agbor Area Police, Agbor, Delta State. The attacks i've suffered alongside family are Robberies, Poisoning, Electrocution attempts, Destruction of property, Arson attempts, Assassination attempts, Destruction of property. Robberies started with a power generator being stolen. The nature of thefts evolved as fortifications such as CCTV Camera Systems, electrical fences, a security tower were acquired. Unauthorized and illegal, unlawful entries continued. Proposal to acquire a solar system was received as a solution to the regular failure of the CCTV camera system. The company contracted to provide CCTV CAMERA and Solar systems is New Age Solar Shop Agbor. This company has been involved in thefts, threats with guns to my life, family's and property, arson attempts, life threatening actions all witnessed by myself and persons. Hunters, wild animals, reports of deaths are frequent occurrences. The cameras were increased on advise when

the robberies continued to cater to possibly blind spots, a tower was also constructed to allow a point overlooking the property, this was to cater to entry from above the property if that was one of the entry points. After increasing the cameras, the robberies continued, however a long history of camera faults from the CCTV system started. The first reports were bad hard drives. these events were witnessed by Samuel, the next incidents were Bad Decoder, there events were witnessed and led to change of decoder for the CCTV system. Next were camera replacements forcefully carried out by the CCTV company without notice, during these camera replacement events there were security thefts, these random actions by the Company were not questioned. Most events were recorded to a CCTV LOG BOOK acquired due to constant unexplained faults in the CCTV system preventing video evidence of robberies, poisoning attacks and other events at the property. The next events was fuse box replacements when individual fuses were burnt, the CCTV company carried out criminal action by insisting a new power box be purchased and individual fuses be transferred. Fuses are sold for less than the cost of an entire power box. The CCTV company installers made remarks and showed visible anger at being caught during

the attempt to carry out theft during the CCTV
unexplained faults attendance with request being
to ensure the CCTV system is functional. The S-
olar system was acquired to ensure the CCTV
System's unexplained faults would stop and we
would be able to identify these group of att-
ackers robbing the premises and poisoning food
and drinks at the premises. The CCTV and Solar
Company, New AGE SOLAR SHOP AGBOR delayed
the installation after receiving payment, the reason
given was that the components were imported from
the USA. After the installation, the Solar System failed
while I travelled out of the country. I met the
property robbed due to the security system being
offline. This was discovered to be a fault, the
Solar System was not charging from sunlight.
I suffered losses due to these incidents including
risk to life of persons mandated to manage the
property during travels. I usually travel outside the
country for school on a weekly basis. The cost
of damage to the property, thefts and other losses
are being evaluated. The Police were invited to
the premises. The New AGE SOLAR SHOP was e-
stablished to be involved in thievery, an incident
confirming their involvement, admission and apology
for theft amongst several incidents was sundry
a staff of the company, the primary solar and CCTV

P.T.O

installer inside the premises unlawfully, and without
invitation. The installer gave vague claims and he
was told this wasn't allowed. After the notice and
warning he left. There were evidences of forced entries
associated with unlawful uninvited entries on
multiple occasions including this event. The solar
system was inspected and it was discovered
that the new solar system paid for and
installed was an old system with visible
sign of aging. This was different from the new
system purchased. A complaint was made with the
prospect of police involvement. The solar and CCTV
Company, New Age solar shop apologized for the
theft and provided a replacement with a new
of the originally new solar system stolen by
them. This action led to consultation of my family
and close persons regarding how to tackle such thefts.
After this incident, the New AGE SOLAR SHOP AGBOR
became hostile, the installer tried to cause harm to
me by asking I put Acid into the solar batteries
myself which is a risky action only to be carried
out by professionals. The intent may have been to
destroy the property and attribute it to the action
or cause damage to me, my refusal led to him
giving a subtle threat and leaving with the Acid

I FREELY ELECT TO STATE AS FOLLOWS

The third event was witnessed by Ruth M. The New AGE SOLAR SHOP AGBOR's installer tried to burn down the property, this attempted arson was thwarted by the presence of my electrical installer named Emmanuel who has his business at Alihame. The New AGE SOLAR SHOP AGBOR's installer also threatened me with a gun after the incident. These were reported to all person regarding the continued threats and failure of services paid for from the CCTV and Solar Company. Known forced entries through the gate even when locked, known damage to doors through regular forced entries, most doors had to be locked using second keyhole since primary keyholes were damaged during forced entries. I took further action to protect life and property after consuming poisoned food and drinks inside the premises. I suffered excruciating pain and survived due to vomiting the items consumed. This incident was witnessed by Martino .O. and lead to regular destruction of food items when travelling to prevent death to persons who may consume the items that may be poisoned by these attackers. Reliance on the police, doctors and others for advises became a priority. An uninvited intruder tried to cause death by moving a power supply line to a metal door, electrocution did not occur due to a brief outage of power. This incident led to efforts to

P.T.O

discourage unauthorized entries including regular notice to all staff that uninvited and unescorted entries were not allowed into the premises. The solar company, NEW AGE SOLAR STOP AGBOR gave clarity on the chain of events with his confession. The smell of gas is sometimes noticeable inside the property, an investigation was carried out to identify the cause of the smell suspected to be gas with the results showing that persons were somehow able to introduce gas into the premises, this lead to effort to get fire safety equipments. this was followed by the NEW AGE SOLAR STOP installer attempt to burn down the property by claiming the electrical staff should be held if a fire happens of which the electrical staff who happened to be present protested and proved the NEW AGE SOLAR STOP INSTALLER wrong and of having malicious intent. this event was witnessed by several persons. Further notice was given against unauthorized entry. The solar installer stated that he acquires all items including his gun from the USA, his father precisely. this was a disturbing incident. the gates were regularly locked and efforts were made to get another solar company from Benin City, Edo state due to the risk from

the solar installer threat to my life. During the period when the solar installers came to the premises, after acquiring an adjacent land, making further investments and acquisition locally. An armed group without identification came to assassinate, assault and attack me. they were armed, I survived due to the help of a metal work professional named Emmanuel who handles all metal works and supports with supervision at the property during ongoing construction work, another person who helped prevent these attackers from killing me was Okafor, also helping with supervision during construction activities. Other persons helped to prevent the intent to assasinate me. The installer was present during, before or after the incident. I was assaulted and suffered physically and mentally. I was put in a state of continued fear after the earlier threat with a gun by the New Age solar shop Agbor installer. Increased awareness of security was at heart, myself, staff kept the gates locked at all times with no uninvited or unaccompanied entry permitted. The police and my family were scheduled to tackle the security threats. I notified my friends and family members, made efforts to understand the reason for continued threats to my life and took security measures including locking gates

P.T.O

On April 19, 2022, I was requested to be at Asaba by Konga. Security equipments such as Camera detectors, Signal management equipments, espresso makes, the coffee maker was good reason to be excited as it was hard to get good coffee in Agbor, Delta state. I was notified that the solar installer was at my premises. I told him that I was on a business trip and any visit was to happen later in the day but no later than 3:00 PM which was closing hours. I asked my staff if anyone was allowed into the premises while I was away. My staff confirmed that no one was allowed into the premises. It would have been cause for arrest if my staff informed me that the solar installer or anyone gained access into the premises while i was at Asaba to pickup company equipments. I had a schedule with my family at 3:00PM so i would be unavailable starting at that time. The metal works and supervisor staff named Emmanuel came to the office before 3:00PM to ask permission to work but i refused and told him we were closed for the day. I contacted the solar company to ask where they were as the time notified was 3:00PM and that would see all activities closed for the day. I did not receive a response. We closed business and I went into my private area for a short nap due to a strange

tiredness that we sometimes experience. This strange
experience usually involves everyone including staff
or visitors feeling sleepy at the same time. I still
can't explain why this happens. I asked my staff
prepare for post-closure activities at the premises.
Next armed intruders entered the premises, Evidence of being
previous attacks where the entry through the roof was
noticeable. The Solar installer gave a Confession, and asked
for forgiveness and assistance during his armed attack where
he attempted to assassinate and rob the premises after
his unlawful uninvited entry. This may be to actualize
his earlier threat to my life and family's safety when
he threatened me with a gun. The solar installer's efforts
to give detailed confessions were witnessed by my Country
provider, named Bright, with his business at Alihame-
Agbor, Delta State. While detained at Delta State Police
Command, Asaba, Delta State. After continued notice to
the investigators that my life was at risk, to which
they took no action to protect my life and allowed
another attack to happen when armed attackers
attacked my property, evidence shows this being a
revenge attack for the failed attack by the WOW AGE
SOLAR SHOP AGBOR, Installer. I notified the investigating
officers about the attack while I was detained.
They said it was impossible for me to know that my

P.T.O

property had been attacked while detained in their custody. They said there was no way to know that my family, home and life was being attacked with an intent to kill and destroy property while I was detained. I lost all hope, earlier I could not understand why they falsified a statement, at the time of the attack they had no reason to refuse acknowledging the situation and taking action to protect my life and my family's. I asked persons at agbor to take photos of the attack. Seek assistance both locally and encourage the Asaba Police Delta State Police Command, Asaba to take action. No progress was made, the police at Asaba were supressing the truth without justification, keeping me, an innocent person detained, away from my family who I must protect. While facing these challenges, notice was received that persons were trying to protect the New Age Solar Stop Agbor installer and company by preventing the truth that they were armed criminals from being revealed. I do not know why the police would protect armed attackers with a history of criminal actions but I took measures to prevent further attacks by regularly requesting the presence of Officer DUKE AMERIKA of THE AGBOR POLICE TO SAFEGUARD MY FAMILY AND
